~~SECRET~~

MEMORANDUM FOR

THE HONORABLE GORDON GRAY

Attached are copies of the President's directives to the Secretary of Defense and Dr. Nistiakowsky for the study relating to reconnaissance satellite projects. I understood from our conversation that you will have the preparation of these studies closely followed by your NSC staff. May I mention that no target date for their completion is specified, and suggest that this is one point that your staff might work out with the people concerned as soon as they have an initial evaluation of the scope of the studies.

A. J. Goodpaster
Brigadier General, USA
Staff Secretary
